0 11.4	Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection,

UTAM incorporates responsible investment considerations into investment manager selection appointment and monitoring processes through the inclusion of the following factors, where appropriate to the mandate:

Selection:

- Issue ESG due diligence questions, review responses and follow up where appropriate.
- Review the manager's responsible investment policies.
- Meet with staff members who are focused on responsible investing in order to assess their skills and competence.
- Discuss current governance and management of the firm's responsible investing activities.
- Assess any collaborative initiatives or direct engagements with the management teams of companies in the investment portfolio.
- Evaluate the quality of the manager's investment policy and its reference to ESG.
- Assess how ESG implementation is enforced.
- Review how the manager evaluates ESG materiality.
- Examine the process for defining and communicating ESG incidents.

appointment and monitoring processes

- Review the manager's proxy voting policy and processes (in cases where UTAM would not direct voting).
- Determine whether the manager is a signatory to the PRI and/or other relevant initiatives and organizations.
- Review responsible investment reporting to clients and/or the public.
- Communicate our expectations for future ESG reporting.
- Evaluate the coverage and quality of the firm's ESG-related research.
- Assess current strategies for incorporating ESG factors, as well as the manager's ability to identify and manage ESG-related issues.
- $\bullet \ \ \mbox{Review ESG-related characteristics of the investment portfolio}.$
- Investigate the impact of ESG factors on specific investment decisions and, where relevant, subsequent stock and portfolio performance.
- Discuss securities in the manager's portfolio that appear to have material ESG risks.
- Incorporate a review of ESG considerations in our internal manager recommendation memos, including rating the manager's ESG capabilities.

Appointment:

When appointing managers, we will seek to include relevant ESG considerations into the investment mandate. Where appointing a manager under an investment management agreement, we will include specific investment parameters where applicable, as well as reporting obligations. Where investing in a manager's commingled product, we will seek to include terms specific to disclosure and reporting in any side letter we negotiate where applicable.

Monitoring:

- Issue ESG due diligence questionnaires annually, following up on the manager's responses where appropriate.
- Include responsible investment as a standard agenda item at annual performance review meetings.
- Highlight examples of good practices by other managers in the area of responsible investing.
- Encourage the manager to join responsible investing initiatives or organizations, and to participate in collaborative projects with other investors.
- Review the manager's responsible investment reporting.
- Meet regularly with staff members who are focused on responsible investing to discuss current research and review any changes in the manager's approach since the last meeting.
- Review ESG-related characteristics of the investment portfolio.
- $\bullet\,\,$ Request details of the integration of ESG factors in specific investment decisions.
- Discuss securities in the manager's portfolio that appear to have material ESG risks.
- Incorporate a review of ESG considerations in our internal manager review memos, including rating the manager's ESG capabilities.

economy impact.

UTAM's sole purpose is to manage certain assets of, or under the administration of, the University of Toronto. Our entire focus is on managing

these assets prudently and in accordance with our client's objectives and constraints. As part of this process, a benchmark portfolio (aka the Reference Portfolio) has been created (see https://utam.utoronto.ca/reference-portfolio/). The Reference Portfolio serves as an objective benchmark to measure the value gained or lost by UTAM's active management activities.

In our investment of the university's assets, we are committed to a responsible investing approach because we believe that material ESG factors can have a significant impact on long-term investment returns. Therefore, we have incorporated ESG considerations into our investment analysis and decision-making processes, particularly with respect to our selection and monitoring of investment managers. As outlined elsewhere in this report, we have developed a comprehensive set of questions and activities that we undertake when selecting and monitoring investment managers. In addition, we've developed ways to engage with companies, to help ensure ESG-related risks are effectively managed. We also cast proxy votes, where possible, applying an ESG-focused policy. We believe that taking this broader perspective will result in better outcomes for our client.

SG 01.5 Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Over the past two years, UTAM has worked with the University of Toronto leadership to strengthen and formalize our shared commitment to responsible investing.

As we balance prudent risk management with our efforts to generate sustainable returns, we also take a broader view of the managers we invest with - because we believe that material environmental, social and governance (ESG) considerations can have a significant impact on investment performance. We've therefore incorporated ESG considerations into our investment analysis and decision-making processes as part of our long-term strategy, as well as our day-to-day management of the university's pension, endowment and short-term working capital assets.

We define responsible investing as the incorporation of environmental, social and governance (ESG) factors into investment decision-making processes, active ownership - through proxy voting and engagement - and disclosure. UTAM pursues a responsible investing approach because we believe that material ESG factors can have a significant impact on long-term investment returns. ESG considerations are part of our investment analysis and decision-making processes, particularly in our selection of investment managers. We've developed ways to engage with companies, both directly and with other like-mind institutional investors, to help ensure ESG-related risks are effectively managed. We cast our proxy votes, where possible, applying an ESG-focused policy. Moreover, we disclose our responsible investing activities on a regular basis, via an annual responsible investing report (https://utam.utoronto.ca/utams-new-responsible-investing-report-is-now-available/) and through other updates published on our website (https://utam.utoronto.ca/news/). We believe that taking this broader perspective allows us to make better-informed decisions and ultimately results in better outcomes for our client.

The PRI framework guided us in crafting our comprehensive Responsible Investing Policy (https://issuu.com/utam/docs/utam-responsible-investing-policy?e=29566501/59442745), which was published in December 2017 and applies to all assets under our management. The six Principles also underpin the deliberations of our Responsible Investing Committee, which meets regularly to consider all matters relating to the development and implementation of our responsible investing practices. Although we have generally taken an integration approach to ESG considerations, our client has directed us to exclude certain tobacco-related securities in our investment universe within certain parameters. That is the only exception to our standard responsible investing approach.

Putting our principles into action

PRI Principle #1: We will incorporate ESG issues into investment analysis and decision-making processes.

LITAM Actions

- · Evaluate ESG-related risks across all portfolios.
- Integrate consideration of ESG factors into our investment and operational due diligence policies, and into other policies where relevant and material.
- Incorporate ESG considerations into our manager selection and monitoring processes, where relevant and material.
- Support development of ESG-related tools, metrics and analyses
- . Encourage academic and other research on ESG integration
- Provide and promote ESG training for our investment professionals.

PRI Principle #2: We will be active owners and incorporate ESG issues into our ownership policies and practices.

UTAM Actions

- Adopt a proxy voting policy that is ESG-focused and apply this, where possible, to all public equity segregated account mandates, as well as
 to public equity funds in which the university's Pension and Endowment portfolios are the only investors.
- Encourage managers to adopt ESG-focused voting policies, where relevant.
- Support corporate and regulatory proposals that contribute to improved governance practices and more effective boards.
- Participate in collaborative engagement initiatives.

PRI Principle #3: We will seek appropriate disclosure on ESG issues by the entities in which we invest.

UTAM Actions

- Discuss ESG risks in managers' portfolios and in relation to particular securities those managers hold.
- Ask managers to undertake and report on ESG-related engagements with companies in their portfolios.
- Ask managers to report on ESG incidents in their portfolios.
- Support collaborative initiatives promoting ESG disclosure by companies.

PRI Principle #4: We will promote acceptance and implementation of the Principles within the investment industry.

UTAM Actions

- Encourage managers to become signatories to the PRI.
- Communicate our ESG expectations to managers.
- Support the development of tools for benchmarking ESG integration.
- Support regulatory or policy developments that enable implementation of the Principles

PRI Principle #5: We will work together to enhance our effectiveness in implementing the Principles.

UTAM Actions

- Support and participate in networks and information platforms in order to share tools and pool resources.
- Address relevant emerging issues collectively with other asset owners and managers.
- Identify and support appropriate coalitions whose beliefs are aligned with the Principles

PRI Principle #6: We will each report on our activities and progress towards implementing the Principles.

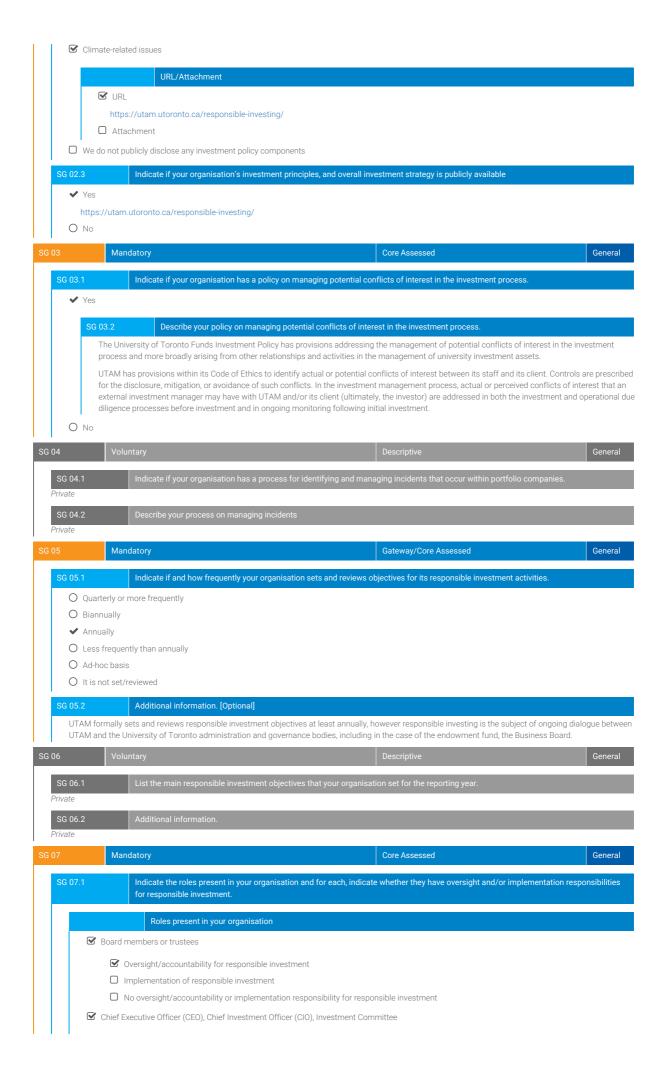

UTAM Actions

- Disclose how ESG issues are integrated within our investment process.
- Disclose active ownership activities (e.g., voting, engagement and policy dialogue).
- Communicate with stakeholders on ESG issues and the Principles.
- Report on progress and achievements relating to the Principles
- Make use of reporting to raise awareness among a wider group of stakeholders.

governance, integrating ESG factors into the investment process and advocacy around responsible investing with policymakers and standard-setters. Other collaborative organisation/initiative, specify Descriptive Indicate approximately what percentage (+/- 5%) of your externally managed assets are managed by PRI signatories. PRI 4 Indicate if your organisation promotes responsible investment, independently of collaborative initiatives ✓ Yes Indicate the actions your organisation has taken to promote responsible investment independently of collaborative initiatives. Provide a description of your role in contributing to the objectives of the selected action and the typical frequency of your SG 10.2 participation/contribution. 🗹 Provided or supported education or training programmes (this includes peer to peer RI support) Your education or training may be for clients, investment managers, actuaries, broker/dealers, investment consultants, legal advisers etc.) Description UTAM hosted a workshop held by the PRI to discuss its inclusion of ESG factors in the work of credit rating agencies. This was instructive for O Quarterly or more frequently O Biannually O Annually O Less frequently than annually ✓ Ad hoc O Other $\ \square$ Provided financial support for academic or industry research on responsible investment ☑ Provided input and/or collaborated with academia on RI related work Description UTAM participated in the project described below by speaking with the author and by connecting the author with other institutional investors. This project is interested in exploring how institutional investors understand and seek to manage "climate risk." It is particularly interested in the risks associated with investment in fossil-fuel producers in the light of climate change and its physical, political and economic impacts. Questions being posed by the project include, but are not limited to, the following: What strategies, metrics and models do investors employ to evaluate, manage and mitigate climate risk? How do questions of fiduciary responsibility interact with climate risk issues? Do investors have the power to discipline fossil-fuel producers to invest in cleaner energy? And where do "stranded assets" sit on investors' list of climate concerns? The project is being conducted by Brett Christophers, Professor of Geography at Uppsala University in Sweden (http://katalog.uu.se/profile/?id=N8-1036). The intended outcome of the project will be one or more publications in scholarly journals. O Quarterly or more frequently O Biannually O Annually O Less frequently than annually ✓ Ad hoc O Other Encouraged better transparency and disclosure of responsible investment practices across the investment industry Description We wrote to the Canadian Federal Minister of Innovation, Science and Economic Development in support of proposed amendments to the Canada Business Corporations Act addressing enhanced corporate governance practices including diversity disclosure. O Quarterly or more frequently O Biannually O Annually O Less frequently than annually ✓ Ad hoc O Other ☑ Spoke publicly at events and conferences to promote responsible investment UTAM's Chief Operating Officer has participated in a panel with other institutional investors moderated by the Responsible Investing Association of Canada to explain how responsible investment may be implemented in practice.

During 2017, we approached relevant managers to further this objective. By year-end 2017 we achieved this objective by including ESG integration language and ESG incident reporting requeach segregated account IMA. Example 2 Copic or sue ESG incorporation in passive index mandates Conducted Internal staff

Topic or issue	Potential new private equity mandate in China
Conducted by	Internal staff
Asset class	Private equity
Scope and process	During 2017, UTAM evaluated various private equity strategies, including several in China. In addition to various other investment factors, an important consideration was the commitment to responsible investment by the investment staff of the firm. As part of the evaluation, we discussed the manager's responsible investing approach and specifically how it is applied in China. We discussed this approach using specific examples of the manager's previous investments. We stressed the importance of responsible investing principles to us and became convinced that the manager shared a similar commitment.
Outcomes	The manager agreed to provide specific reporting on their ESG practices as part of their annual reporting provided to limited partners. UTAM considers the manager to be of high quality and obtained confidence that all relevant factors are considered as part of the manager's investment process, including ESG factors. UTAM committed capital to the manager in 2017.

	oblige	es us to pai	ed to active ownership. This requires us to promote good corp rticipate in engagement with management and boards of comp nt of effective company management and long-term performan	panies to address ESG issues. Sound corporate governance	e is an				

As a member of the Canadian Coalition for Good Governance, the Pension Investment Association of Canada and the Portfolio Management Association of Canada, we endorse the positions of these bodies with respect to corporate governance as reflected in their various position statements, and we contribute to their development where possible.

We participate in formal engagement collaborations through membership, alignment or service arrangements with various organizations.

Informal collaborations involve like-minded investors coming together to advocate on matters of interest to all participants. We will participate in these wherever it is likely to be of benefit to the University.

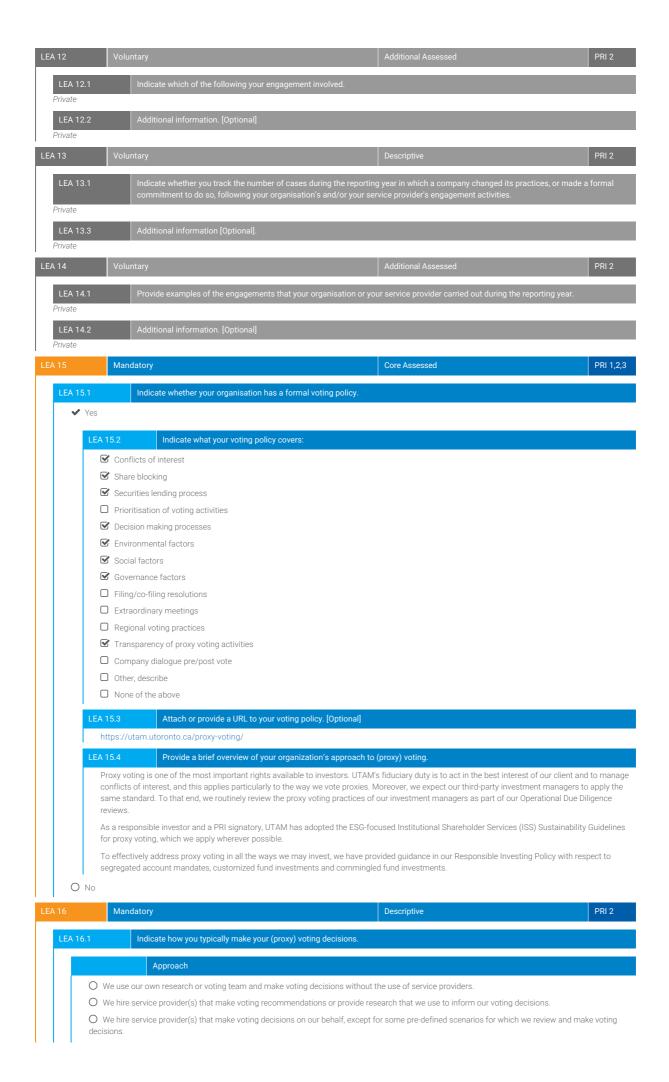

Our engagement service provider's approach is based on constructive and confidential company dialogue and on building a relationship of trust, where over time they seek to understand how companies manage ESG risks and encourage best practice.
